## EDUCATION

### B.Tech CSE

Lovely Professional University, Punjab, India

2017 - Present

### Higher Secondary

Gyansthal Vidyalaya, Rewa, M.P, India

2015 - 2016

### High School

St. Mary's, Jawa, Rewa, Madhya Pradesh

2013 - 2014

## PROJECTS

### Bank Marketing

This Project was about to predict that the client will say yes or no to Term Deposit. I have done this project with help of Python where Logistic Regression Algorithm was used. I had done all the necessary step to make predictive model accuracy maximum.

### Car Price Prediction

I had build a Machine learning multi\_linear Regression model to understand the factors car prices vary on and help a Chinese company enter the US car market. This Project was done with help of Python, where all the step including Data cleaning, EDA, Data Preparation, splitting dataset using sklearn, Checked VIF and RFE, built model using statmodel.

### Uber Supply-Demand Gap

This project was done using Python where i had to find the Supply-Demand Gap and Find the solution to minimise it. I had done the Data processing and EDA using NumPy, Pandas, matplotlib, seaborn library of python and performed univariate and bivariate analysis to get solution.

### Stock Market Analysis

This project was done using MySQL where i found the moving average of top companies with help of MySQL.

## TECHNICAL SKILLS

Linear Regression

Logistic Regression

Python

C/C++

R Language

Operating System

MySQL

Data Science

Problem Solving

NumPy

Pandas

Microsoft Excel

Tableau

Hypothesis Testing

Inferential Statistics

## ORGANIZATIONS

Member at College Based Organisation "Webnerds"

## CERTIFICATION

Data Science with R (DATACAMP)

Data science with Upgrad

6 month training

## LANGUAGES

English

Professional Working Proficiency

Hindi

Full Professional Proficiency

## INTERESTS

Playing Guitar

To get insight from Data

Sports

Travelling
